## Comments:

We sat at the bar and were greeted immediately. The bloody mary's were perfectly spiced and seasoned. Definitely a must if you go there to dine.

We started with the chargrilled oysters. They were delicious. These were followed with the Jambalaya. It had a great flavor, but could have been served a little hotter. Also, the Acme Special Po-Boy served debri style, but with no bread. It was really good, but again, a little under heated. I think the "no-bread" threw them off a bit. All in all, I am sure the heat issue was an isolated event, as the place was filling up as we were leaving. Nighttime service has long lines, so get there early.

The restaurant was narrow, but went pretty far back. There was a lot of space for groups and family's to dine together. All in all, a really cool place to hang out and eat NOLA food.
